just imagine...
How do we prepare our children for the new millennium?
The new millennium will present us with discoveries and new thinking that will amaze our time. Things will change at lightning speed. So it's inevitable to ask, if traditional skills will make sense in this future? And how we prepare for it?

Albert Einstein once stated: "Imagination is more important than knowledge". We couldn't agree more. It's important to develop the ability to imagine.

**Imagination holds the key to the future**

It's curiosity, excitement, concentration, pride, and joy that stimulate children and keep them active and alert. And these emotions are also the foundation for creative thinking.

Just like Einstein needed formulas to express his thoughts, children need materials to convey theirs. With LEGO® products children can not only learn to express their thoughts and emotions but also how to use their imaginations.

**Create and learn**

Our ambition is to give children the materials they need to become the visionaries of the future. The very idea of LEGO products is to provide children with opportunities to be creative and inspire them to approach problems with confidence and enthusiasm.

As we enter the new millennium, we also embrace new technologies allowing children to understand even complicated technology and become creative masters of it. It's all part of growing up to become inquisitive and confident adults.

We hope that you and the children you care about will share our ambition.
Babies develop at a faster rate in the first two years than at any other time of their lives. With this in mind, all LEGO® Baby toys have been carefully designed - the shapes, colours, sounds, sizes and the many possible combinations. LEGO BABY is a range of fun, stimulating and safe toys that grow with your child.

NEW

2514 Activity Friends.
Friendly faces, different sounds and bright colours call for attention. Each part of the toy has different sections to stimulate your baby. From birth.

2117 Soft Activity Centre.
A soft activity centre with lots of BABY elements to create new surprises to keep your baby happy and stimulated. The Activity Centre can be hung or used on the floor. From birth.

NEW

2468 My First Rattle.
By listening, looking and turning the rattle your baby can be stimulated to develop their senses and motor skills. From birth.
the most important...

Rattle

I am coming to get you!

2517 Rattle Friends.
are soft to the touch and colourful for your baby to investigate.
It comes with 2 rattle elements that all fit snugly into small hands.
From birth.

NEW

2000 Sally Starfish.
A brightly coloured teether ideal for chewing but also great to hold.
Sally is red and yellow which are very visible primary colours for your baby to see and learn to recognise.
From 3 months.

NEW

2503 Musical Apple.
Press the worm into the apple and it plays a harmonic tune as the worm slowly comes out of the apple again.
As your baby learns to crawl the apple can be used as a stimulus for baby.
From birth.

I can see you!

NEW products available from January
Gaining confidence can

Look, I am fishing

2030 Freddie Frog.
A great little set which can be used at bath time or during any water play activity. The friendly looking frog is fun to look at and great for those little hands to investigate. When you press the top of Freddie's head he will wink and squirt water at you. From 6 months.

2031 Toby Turtle and Friend.
Toby and Friend are fun to play with in or out of the water. Toby floats and for extra entertainment as water is gently poured on top of him he will move forward in the water. From 6 months.

2046 Let's Go Fishing.
Going fishing while having a bath or when your baby is involved with water activity can help develop their co-ordination skills as well as being lots of fun. From 6 months.

Most babies enjoy water, whether it is in the bath or splashing around in a pool. It is also fun to bring some friends along and discover how different they behave on land and in water. Once splash time is over it is great to cuddle up on mum's lap and listen to a story. Playing with LEGO® BABY toys can give babies the confidence they need to try out new things.

NEW

2107 Big Value Set.
A great value set which will inspire your child to create. This set includes the new arched element. From 9 months.

NEW New products available from January
open new doors...

2071
Play Plane.
With spinning propeller and pilot.
From 6 months.

2522
NEW
Play a Story. Use this book to create your own stories and with BABY elements included, the story can be acted out as well. From 3 months.

2001
Three-In-One.
Three colourful toys to stimulate touch, sight and sound. Walter Walrus rattle, Sammy teether is great to chew on and the pliable tree is great fun in your baby’s hands. Stacking can also take place as with all BABY products the three-in-one elements can be fitted together. From 3 months.

www.LEGO.com/baby
Small hands love to build and even more to knock down...

To stack the brightly coloured bricks and then knock them down over and over again is great fun and a great exercise for developing those co-ordination and motor skills.

2076 Play House.
With this fun house your child can play hide and seek and begin to role play as they learn to stack the elements and put little Timmy to bed. From 9 months.

2099 LEGO BABY Fun Sorter.
A real challenge for little brains. With your help your child can stack things high to knock them down again as well as learn how to fit the different shapes into the different holes. The set also includes a baseplate. An ideal toy which encourages the use of lots of basic skills. From 8 months.

2013 Fun Train.
A great train which includes Timmy and friends and a number of brightly coloured elements some of which rattle. All these elements can be stacked on board the fun train for added play value. From 6 months.

2010 Toddler Truck.
A brightly coloured walker truck which will help give your child confidence when taking those all important first steps. The stacking blocks broaden the appeal of the set and add to the play value. From 9 months.
When your baby feels confident with the LEGO® BABY bricks, it is time for new challenges. With these new LEGO DUPLO building sets your child will be able to create some happy little creatures by just putting two or three elements together. Motor skills and imagination develop simultaneously, and the experience of instant success will encourage your child to do more.
Watch the imagination grow...

The first and best experience with the LEGO® DUPLO bricks is to build tall and long, to build an enormous tower and watch it topple over. Soon your child will want to make more imaginative creations that resemble things they see around them, such as a car, a house, an animal or a train. Playing with these LEGO DUPLO sets will encourage your child to develop their story telling thereby helping their linguistic skills develop.

2588
Safari Building Set.
Your child can build lots of animal friends for the hippos and the giraffe out of all the elements in this set. From 18 months.

2284
Brick Runner 1.
From 18 months.

2253
Big Tubular Playtime.
A great set containing lots of tubes that click together, balls for rolling down the tubes and a quantity of brightly coloured DUPLO bricks to stimulate and excite your child. From 2 years.

2222
Tublar Fun.
Have lots of fun clicking the tubular elements together. From 2 years.

2751
Egg Fun.
Each egg contains a collection of pocket money DUPLO elements. There are 4 different eggs to collect. From 18 months.

NEW New products available from January
2304 Large Green Building Plate. (38 x 38 cm).
From 18 months

2198 3 Building Plates.
From 2 years

2814 Big Wheels Road Works Set.
The big wheels and chunky vehicles with light and sound effects will trigger any toddler’s imagination and develop their role play skills. From 2 years.

2807 Big Wheels Digger.
Wow, it’s just like the real thing. Your toddler can have some real fun with this new big wheeled digger. Once constructed role play can begin. From 2 years.

2808 Big Wheels Tipper Truck.
This chunky big wheeled tipper truck can trigger your toddler’s creative building skills. Once constructed your toddler can then use this vehicle and accessories to mirror the world around him. This tipper truck comes complete with light and sound effects. From 2 years.

2811 Emergency Centre with Light and Sound.
Complete with emergency crew and vehicles for land and air rescue. From 2 years.

2280 Brick Runner 2.
From 18 months.
2-6 years

Little Forest Friends

2833 Bluebell Girl and Friends
A lovely big collection of DUPLO elements with Bluebell Girl and her friends. Create some furniture for them or prepare a little party using the decorated food bricks. A fun little storybook is included for extra enjoyment. From 2 years.

2830 Snuffle Snail with Lolly and Baby Jelly Strawberry
The Strawberry Family are early risers, always busy collecting food. They are very helpful and look after Snuffle Snail, who is the local taxi. A fun little storybook is included for extra enjoyment. From 2 years.

2832 Jingle and Toot Bluebell with Buzzy Bee
The Bluebells don't really do much during the day, but when the sun sets and the other families go to sleep, they start singing and playing musical instruments and make a lot of noise! A fun little storybook is included for extra enjoyment. From 2 years.

2834 Little Forest Friends World
A peaceful sunny world where all the Little Forest Friends live. The Meadowsweet Family try and do as little as possible, except when Buzzy Bee brings visitors to spend the day. A fun little storybook is included for extra enjoyment. From 2 years.
Whether children know the stories of Winnie the Pooh and his friends or not, they will have great fun creating a whole new world for these fun little characters.

2982
Pooh's Birthday.
Winnie the Pooh has made delicious cake for his birthday party. Eeyore is the first guest to arrive. Your child is invited too, and can help build the best birthday party ever for Winnie the Pooh and his friends! From 2 years.

© Disney
friends with Winnie the Pooh

2985 A Playful Day with Pooh and Tigger.
Tigger just wants to play, all day long. Winnie the Pooh agrees, but ONLY if Tigger promises to build something with him. It can be anything! Let your child join in the fun too! From 2 years.

2984 Pooh and Piglet go Honey-Hunting.
Winnie the Pooh needs help getting some honey, without the bees noticing. Piglet can distract the bees with his balloon, or perhaps your child can help Winnie the Pooh made a bee trap! From 2 years.

2983 Pooh and Tigger play Hide and Seek.
Winnie the Pooh, where are you? Your child can help Winnie the Pooh hide from Tigger by building lots of different hiding places for a fun game of hide-n-seek. From 2 years.

2987 Welcome to the Hundred Acre Wood.
home of Winnie the Pooh, Piglet, Eeyore and Tigger. See where they live, play, hunt for honey, throw birthday parties and have all kinds of adventures. Let your child join in the fun too! From 2 years.

2990 Tigger’s Treehouse.
See Tigger having fun in his Treehouse down in Hundred Acre Wood as he tries to keep his balance going across the bridge to reach his friend Winnie. From 2 years.

2989 The Big Honeypot.
Big and chunky and full of DUPLO elements so that your child can build different worlds for Winnie the Pooh and his friends. A bridge for playing ‘Pooh-stick’, a tree to go honey-hunting and lots more make this set a real must. From 2 years.

2981 Pooh and his honeypot.
From 2 years.

NEW New products available from March
Who wants to play?

A whole new world of imagination starts in LEGO® City

When your child is getting to the age, where he is ready to explore the many adventures in the LEGO world, he can start with LEGO City. The models are specially created to fit his skills and his abilities.

With LEGO City, children get to use their imagination and at the same time learn about the world close at hand. And as they grow the bricks can be turned into whatever they can imagine.

Attention all. Meteors are falling on the North Pole.

They have fallen - let's go!

Hey, there's something inside the meteor.

Calling Base... We have discovered another one!

Watch out for the big polar bear!
6575 Polar Base.
The base consists of four units: a weather station, first-aid station, meteor laboratory and a communication tower; all can be combined in different ways to create lots of play scenarios. 8+

ARCTIC

6586 Polar Scout
for picking up meteors. 6+

6579 Ice Surfer.
6+

6573 Arctic Expedition.
The arctic expedition is a huge snow-clearing vehicle on caterpillar tracks. It is capable of going anywhere and clears the road for many expeditions in the otherwise impassable terrain. The snow plough in front of the tracked vehicle can tip and the smaller robotic vehicle has a flexible crane arm for collecting meteors. 7+

6520 Mobile Outpost.
Inside the base is a fully equipped lab. If you take the full-track vehicle apart you can build a useful sleigh. 7+

8448 Super Car.
Be your own car designer! With this absolutely phenomenal set you have the power to design the car of your dreams! Once you have constructed the chassis you can build a cool convertible or an amazing ‘wing door’ model or change it into a sporty looking vehicle with a tip lid. There are 6 gears, perfect suspension on all wheels plus the hydraulic system and lots more. By adding the 8735 motor set you will see that the gears really do work! 10+

LEGO TECHNIC CyberMaster

This CD-ROM takes you to TECHNIC City where your guide is Taxi Jim. He will show you the Coliseum, where robots do battle and Area 15 where Joe the Mechanic will help you construct your models.

With LEGO TECHNIC Cybermaster you control your models on the floor via your PC while you participate in a fun and challenging on-screen adventure in TECHNIC City.

The LEGO TECHNIC Cybermaster set contains a CD-ROM, a transmitter, a programmable LEGO Brick and touch sensors along with all the building elements you need in order to design your own robots.

SYSTEM REQUIREMENTS for 8450 and 8482: A Pentium 90 MHz PC, 16 MB RAM, Windows 95/98, 60 MB free hard disk space, 4 x CD-ROM drive, 1 MB graphic card, sound card (graphic card and sound cards must be direct X compatible) speakers and a free serial port.

LEGO TECHNIC Mission

If you are ready for more dangerous assignments, join the LEGO TECHNIC Mission. With this set you get a CD-ROM which includes a Flight Simulator and lots of building elements.

Jack the Maniac sends you on different missions in your super-plane. It has a winch and grab so people can be lowered to the ground for safety. Of course, no mission will go without a hitch - it is up to you to solve the problems.
LEGO MINDSTORMS
CREATE AND PROGRAM ROBOTS THAT DO WHAT YOU WANT

From 12 years

RCX MICROCOMPUTER

The behaviour of your robot is controlled by the RCX microcomputer, which you build into the robot. The RCX controls motors and reacts to input from sensors.

You program the RCX on your PC with an easy-to-use yet powerful programming language.

With the Robotics Invention System you can build and program thousands of different robots that move, act and think on their own.

THE SET INCLUDES:
- The RCX Microcomputer
- CD-ROM software
- 717 LEGO pieces including:
  - 2 motors
  - 2 touch sensors
  - 1 light sensor
  - Constructopedia™
  - 12 guided challenges
- Infrared transmitter

DROID DEVELOPER KIT
Bring your Star Wars universe to life.
From 9 years

9748
LEGO MINDSTORMS™
DROID™ DEVELOPER KIT

Now you can create droids and make them move, react to light and make sounds with the Micro Scout – an all new LEGO® microcomputer.

The Micro Scout microcomputer has a built-in motor and a light sensor. With the Micro Scout you can select from seven different behaviours to bring your droids to life.

The set includes over 650 LEGO pieces, the Micro Scout and a CD-ROM.

Develop Droids at Three Unique Levels

I. Jedi Apprentice Level
Begin your journey with step-by-step building instructions to create R2-D2 and the original L-3GO.

II. Jedi Knight Level
When you are ready to move on, use snap-together assemblies to create your own animated droids.

III. Jedi Master Level
Finally challenge yourself to create Episode I models or droids from your own imagination.

ENHANCE YOUR DROIDS
Extend your droid’s capabilities by using the RCX™ and other LEGO® elements from the Robotics Invention System™.
Look at these big elements for fast building. Great light and sound effects and a screwdriver for construction makes these new products great fun. One of the sets can even be programmed! Look out for these new and incredible products coming soon in 2000.

**Coming soon**

*From June 2000*

See how these vehicles can be turned into a number of different models very quickly!
On this page you can see some of our very popular gift items. Hurry to your local toy stockist for these products as they are only available for a limited period.

2048
My Little Lily Pond.
To stimulate those eyes, ears and little hands, this superb set includes a variety of toys including Toby Turtle that moves forward when water is poured over it, a lily that can float, and a 'spyhole' element that can be used for a game of hide and seek. All the elements can be stored in the container when bath time is over and the lid can even float to hold all those elements during bath time or water play. From 6 months.

2104
Willy Whale.
A friendly looking whale full of brightly coloured BABY stacking elements. From 6 months.

2436
LEGO DUPLO Big Chief Brown Bear's Camp.
Many stories can be told around the camp fire! A magnificent Indian Camp complete with tepees, canoe, decorated totem pole, Big Chief's family and decorated bricks. From 2 years.

2022
LEGO BABY Edward Elephant.
Edward is a large elephant big enough to sit and rock on, or when the rollers are used your child can use their leg power to move Edward up and down. Not only that, Edward's nose can be used for building and lots of brightly coloured BABY blocks are included in this set and kept inside Edward. A first class toy for a first class child. From 9 months.

2434
LEGO DUPLO Sheriff Jake.
Sheriff Jake is at the ready to protect the Wild West from bandits! You can deputise for Sheriff Jake with your very own Sheriff's badge. Role play has never been so much fun as with Sheriff Jake, Bandit Joe, prison and decorated 'wanted' and 'key' bricks. All stored in a Sheriff Jake Container. From 2 years.
6568 Dragster Raceway.
Get ready for that race. Engage the helicopter into action to view the race from the skies. Includes a good set of tools for those essential repairs. From 7 years.

6977 Arachno Base.
A sly spider! The base can split into two vessels, one with wheels and the other containing the special Insectoid unit which creates light and sound. Webb is the Commander of the Arachno Base which also acts as the group’s fuelling station. From 8 years.

More to offer in 2000

5978 The Secret of the Sphinx.
The creature is safe in the bowels of the Sphinx. However, the Adventurers are getting ever closer to the largest ruby the world has ever known, called the ReGou. This ruby is hidden in the Temple. The ruby used to belong to Pharaoh Hotep and his spirit will not rest until the ruby is returned to its tomb. Until this happens, strange events will occur and the mummy will wander restlessly, spreading terror in its wake. From 8 years.

5988 The Temple of Anubis.
The Adventurers search the area in their balloon. Any intruders into the temple are met by trapdoors, skeletons and other disasters. This set has all four pieces of the map which can be joined together to give the answer to the whereabouts of the red ruby. From 8 years.
**INSECTOIDS**

6969 Space Swarm.
With the new insectoid unit which gives of light and sound the front of the vessel can be detached from the rear to become a high speed space ship for those tricky manoeuvres. There are also 2 smaller vessels attached by magnets which have further magnetic elements to pick up the Volstone from the planet Armeron.

Zec, Captain of the Space Swarm, is the most experienced member of the team to pilot this craft. From 8 years.

8257 Jaw-Tong Slammers
From 9 years.

8067 Sonic Stinger
Complete with insectoid unit which provides of light and sound! Insector 2, the female member of the reconnaissance crew, controls this strong, powerful ship equipped for defending the Insectoid nation and for foraging the planet Armeron for the Volstone rock. This rock is created when lightning strikes the planet and is used by the crew to fuel their feet. From 7 years.

8266 Blue Flash Versus The Arachnophob
From 9 years.

**LEGO TECHNIC**

8462 Recovery Truck
From 11 years.

8428 Red Hot Machine with CD ROM
From 11 years.

+ CD-ROM
Where did the ball go?

You can control the direction and power of the LEGO® football players. Five of the best players have kicked the ball right through the pages in this brochure. But on which page does each of their balls end up? Take a look at the pictures in each hole and find the brochure page they belong to.
