LEGO® Sets for little ones have a brand new name! 
Introducing DUPLO™ Building Sets

DUPLO Building Sets are the perfect tools for performing the work of early childhood. Each set contains big, bright, colorful blocks with smooth round corners. You’ll find friendly people and pets crafted from highly durable plastic. All the pieces snap together and snap apart easily.

You’ll want to be there when your little one first examines his or her new DUPLO blocks, begins to explore, to line them up, to stack them.

1½ years & up

ALL DUPLO sets fit together. There are blocks and wheeled platforms, and happy DUPLO people and pets. Most sets also contain special doors that open and close, and peek-a-boo window blocks, that add smiles and laughter to building fun. One set even contains a boat that floats!

082 LEGOVILLE™
Then after a while, “click” - two blocks will snap together - and suddenly your child is building! From here on, the possibilities are endless. Your child’s imagination is in charge, stretching and growing every day. As your child’s building skills grow, you can add new sets to his or her collection. The new pieces, pets and people will spur the imagination and add to the fun even more!
LEGO Universal Building Sets.
Sets that become anything your child can imagine!

The magic of the LEGO concept is best summed up in one word: flexibility. Every LEGO set you buy for your child can be used to build hundreds of toys! And every LEGO set he or she owns fits with every other LEGO set. The building possibilities are infinite.

Maybe there's a special kind of skyscraper your child envisions. A new kind of car he wants to invent. Or a whole brand-new-unlike-anything

3 years & up LEGO Universal Building Sets

With these sets your child can create anything he or she can imagine - there are literally millions of possibilities. Each set has wheels and tires, doors that open and close, windows with movable shutters, baseplates, plus a wide variety of building bricks in different sizes, shapes and colors. The larger sets also contain many special pieces including LEGO people, roof bricks, clear bricks, trees and gates.
creation he wants to build - just for the sheer joy of building it! Tomorrow, when a new Idea means the world to him, his LEGO set will be out again.

The LEGO Building Sets featured on the following pages range in their size, complexity, and age appeal. However, each set offers great flexibility, challenge and fun. Fun that stretches children's imaginations and develops creativity.
6 years & up LEGO Universal Building Sets

As a child grows, imagination, ideas, and expectations grow, too. LEGO Building Sets meet the growing demands of every boy and girl. These sets have more of everything. More of the pieces children know …more new pieces they haven’t met. There are airplane props, deep-grooved tires, ladders, TV antennas, claw shovels, even true-to-scale Mini-Figures™. Each set includes detailed building instructions.

6 years & up LEGO Universal Motor

The LEGO Motor is designed to be used with other LEGO Sets to make things move for added realism - cars and trucks, windmills - they all move with the LEGO Universal Motor. But more than that, to become motorized, a car has to be rebuilt, redesigned or even enlarged. A specific challenge is presented that brings a child’s imagination and intelligence all into play. The motor features safe battery power with forward and reverse action.

901 Universal Motor
LEGO Set 404 contains a battery-powered motor with a lever to control forward and reverse action - makes cars go, cranes haul up and down, propellers spin, and more!
