## DUPLO Build-up and Play Toys for Children from 1 to 5 years

DUPLO Build-up and Play toys are specially designed for children from as young as 1 year. The large bricks with rounded corners give children the opportunity to develop their hands and senses.

Babies start by examining the pieces, feeling them, perhaps biting them, and laying them in a row. One day they discover that the elements can be clipped together, and the stacking and building game starts.

As children develop they demand different things from toys and the DUPLO range meets these changing needs right up until they are ready for the smaller LEGO® bricks which fit together with DUPLO bricks, making the transition easy and natural.

## LEGO Basic Sets for Children from 3 years

The Basic Sets are the best way to start LEGO play. The assortment of bricks is suited to the children's age and capabilities.

Here the imagination really gets something to work on, without any need for instructions. And there is inspiration for new ideas on the outside of the boxes.

## Basic Sets

LEGO bricks keep children occupied for hours on end, day after day, year after year. Because here children can really do something. Their imagination is put to work. They get challenges and problems to solve. And this they love. With LEGO bricks children can build their own world - and rebuild it over and over again. Because the bricks can be put together in just as many ways as children can imagine - and more.

## Advanced Basic Sets for Children from 7 years

The 3 new Advanced Basic Sets meet the demands of older children for more realism and complexity. The wider variety of pieces make it possible to build large, exciting models. There are building instructions in the boxes for some models and ideas for more. Set 744 even has a motor for powered models.

**Stories you can build.  
For Children  
from 3 to 7 years**

FABULAND® is a fantasy world with appealing animal characters which set off the imagination. The units are large and therefore quick and easy to put together. And there are little stories enclosed in the boxes, which children can "read" and use when building.

## Like to Join the LEGO Builders Club?

Many thousands of children are already members and you can join too.

A membership fee of £1. for each child gives membership for 12 months from the date of joining. By return you will get a membership pack consisting of a handsome badge, certificate, satchel stickers and a sew-on badge for your jeans or T-shirt. After that you receive 3 Club newsletters during the 12 months. These give hot news about new sets, ideas for models and pictures of Club members' own models. There are competitions for LEGO set prizes and Master Builder Awards (yes, girls can become Master Builders too of course) and there are Special offers from time to time exclusive to members.

If your mum or dad agrees, why not fill in this Registration Slip and send it with your £1. membership fee right away.

**Please Note:** Club mailings can be posted to addresses in U.K. and Ireland only.
