LEGO®

LEGO® & DUPLO Catalogue '83

DUPLO and LEGO® toys. From 0 to 14 years

Small children discover themselves and the world around by playing. DUPLO toys from 0 to 5 years are designed to let small children play and discover the world in a fun way.

LEGO® Sets are for children from 3 years. Different lines for different children and ages. LEGO Sets for small children focus on easy building, playing and pretending. LEGO Sets for older children allow realistic construction, more difficult and demanding building.

The assortment survey on the right shows DUPLO and LEGO lines with recommended ages. For detailed information see the pages for each line. All sets are age-marked for your guidance.

Baby Toys Building Sets Play Sets

0-5 years

The DUPLO range consists of rattles, building blocks, people and large special pieces for cranes and trains. In bright colours and with rounded corners. All pieces can be fitted together. DUPLO toys stimulate children's activities, senses and imagination. Page 4.

Basic Sets

3-12 years

Free, creative building Basic Sets come designed for 3 age groups: Basic Starter Sets from 3 years, Basic Sets from 5 years and Advanced Basic Sets from 7 years. They contain a balanced selection of varied LEGO® pieces to give the widest possible scope to the imagination. All show a variety of models on the box to give stimulating building ideas. Page 10.

Fabuland

3-7 years

FABULAND® sets contain fun animal figures and large units complete with doors and windows. Standard LEGO bricks and story books are also included. The large units make building quick and easy so that the characters can move in and start to live out their adventures. Page 16.

Ships

5-12 years

Build your own ship. It will sail on the floor, or float in the bath – or even the sea!
The ships have working parts for added play. Page 19.

LEGOLAND®

5-12 years

LEGOLAND® Town and Space Sets. Scale models to build and collect. The LEGOLAND range includes low priced packs as well as bigger models. All models are to the same scale so children can build up a complete LEGOLAND Town or Space scene. Page 20.

Railways

6-14 years

Trains you build yourself. From the simplest push along train, through battery operated ones, right up to electric train sets with lights and remote controlled points. Page 26.

Technic

7-14 years

Detailed working models for the mechanically minded. Models that work as in real life with gears, pistons, power transmission etc. Simpler models for the young, really challenging ones for builders over 10 years. Page 32.

Spares Service

3-14 years

If you lose a special part or want an extra one, then the Spares Service offers you the possibility of sending for more than 100 different components. Page 35.

The fun way for little fingers to learn

A child begins to play almost from birth. Because through play children develop skills and senses.

Development is very rapid during the first years. So the toys you give your child should be flexible enough to adapt to this development.

DUPLO toys encourage children to investigate and discover. The toys can be used in new ways along with your child's discoveries. They can be built together and offer new stimulation all the time.

DUPLO toys are age marked and start at 3 months.

From 3 months

The very first toys

The purpose of babies' play is to get to know and understand the world around them. By feeling, listening and watching. Babies love bright colours. Red and yellow are preferred. DUPLO rattles and baby toys are made in colours which babies respond to. The toys have sounds and different shapes and functions for small hands to discover.

Spinning Rattle Set. The platform spins easily but doesn't run away. Can be used as a building platform or as a push toy. The big DUPLO bricks can be added later on.

2015
Ball Rattle-Teether. Soft rounded forms, two-hand grip. Ball rotates and rattles

2023
Flower Rattle-Teether. Easy-to-grip form. Disc moves with click-clack sounds

2024
Duck Rattle-Teether. Easy-to-handle, two-hand rattle. Ball rotates and rattles. Eyes move. Beak ideal for teething

2037
Spinning Rattle Set. Bottom spins and rattles but stays close to the child. Face of separate rattle turns and clicks

2038
Bath Activity Set. See below

The Bath Activity Set has a floating base and a separate fish rattle. Spinning barrels, a plunger button and a clicking knob add to the fun.

1-5 years

Put together. Take apart

Children at about 1 year begin to be increasingly aware and inquisitive – always on the look-out for new possibilities. DUPLO Building Sets contain big DUPLO bricks as well as platforms with wheels and push-and-pull toys, with sound and movement. All of which can be built together giving your child lots of opportunities for discovering new things all the time.

2053
Bumper Pull-Toy. Can be pulled or pushed with a nice rattle sound

2056
Rocker Pull-Toy. When it moves the platform rocks back and forth. Turn it upside down and it rocks

Building Set

2-5 years

Playing as in real life

When your child is about 2 to 3 years old its way of playing changes. It tries to understand the adult world, and this is reflected in its play. Your child imitates. Plays "Mum and dad". Plays "Car" and needs toys which look like the "real" world. DUPLO Play Sets are realistic toys, like "Farm", "School", "Shop". All of which let the little child act out the things it knows from reality.

2645
School and Bus. The blackboard has interchangeable pictures. The school bell rings and the clock has hands that move

2644
Service Station. Special bricks build the forecourt and the pump clicks when turned

2642
Living Room. Complete with four figures and furniture

2640
Supermarket. With shelves of goods and a check-out till that rings

033
Farm Animals. With windmill that turns around

041
Play House. Use it as a house, a building base, or storage box

2-5 years

Toys that go round. Drive. Work. And look different every day

The new DUPLO Play Train has lots of exciting play possibilities. With locomotive, tipper waggons and new play figures. Locomotive and waggons can be taken apart and rebuilt differently. You can get extra track to make up a big circuit. The crane can lift, turn and has sounds. The crane elements look very realistic and can be combined in many different ways. The end-tipper from the crane set can dump the load by tipping the platform.

045
Play Farm. Includes all the ingredients for building and playing with a farm

2648
House with Garage. One half furnished with beds and table, the other has a car and big double doors

2646
Play Crane and Truck. The crane rotates to load bricks in a skip which tips them into the lorry

2622
Little Plane. With propeller that rotates

2620
Sports Car with driver

2623
Delivery Van. Load up the groceries and off on your rounds

2635
Fire Engine. The ladder can be raised and lowered

2627
Car and Horse Box. The cowboy can also ride the horse

534
Bath-toy Boat

The crane can lift and load the truck.

2634
Tipper Lorry. A sturdy end-tipper. The new play figure can also handle the shovel

2711
Play Train track (straight). Four pieces, easily connected

2712
Play Train track (curved). Four pieces, makes a ½ circle

2700
Play Train with track. The crane can lift bricks. The tipper waggons can be emptied. And the rails are easy to put together

2705
Play Train (without track). An appealing push-train. Run it on the floor or add rails if desired

3-12 years

Basic Sets

322, 333, 355, 366
Basic Sets from 3 years. Include bricks, wheels, windows.
Larger sets also include figures, and trees

Truck with tree.
Built by 3-year old
LEGO builder.

Basic Starter Sets. From 3 years

The very best way to introduce your child to LEGO® play. A balanced selection of colorful pieces. For building, rebuilding, and getting new ideas all the time.

From 5 years

Basic Sets From 5 years

Basic Sets for the 5 year-olds contain elements which combine imaginative building with realistic details. These sets also include some building guides to spark the imagination.

544, 555, 566, 577, 599

Basic sets from 5 years. With bricks, wheels, doors, windows and figures. All sets include building ideas. Big sets 577 and 599 also include the wind-up motor

Delivery van
Built by 5-year-old LEGO builder with a wind-up motor.

890. Wind-up motor

It's fun building a car. It's even more fun to build a car that drives on its own. The wind-up motor gives life to models. Complete with extra key.

7-12 years

Advanced Basic Sets

At 7 years, building is not enough. Now the child wants to combine building with constructing and experimenting with working models.

Basic Sets for the 7 year-olds contain specialized items for realistic models. Like rotors, beams, gear wheels, and other elements which allow advanced and creative building. The Basic Set 744 even includes a battery motor.

Tow truck
With special working features. Built by a 7 year-old.

Basic sets from 7 years

722, 733, 744. For realistic building with wheels, cranes, rotors, gear wheels and much more. Building instructions for 5 models. Large set 744 of includes the battery motor and instructions for 5 motorized models.

107
Battery motor For building into working models. With lever for forward/reverse control. Batteries not included

710 New Basic Set for children from 7 years

For building many realistic models, especially houses furnished with cupboards complete with opening doors and drawers and details like pots and pans.

New 1983 - Available September

Supplementaries

Need some more bricks?

If you are building a special model and need more bricks or plates in one colour then supplementary packs are for you. They are also an easy way to build-up your collection.

Light up your models

You can even give your models lights in various colours with the lighting set 970. They work best with the battery box from the motor set 107.

Get new ideas

The 84-page LEGO building book. With lots of ideas for new models.

Stow it all away

The handy storage box is the easy way to keep your LEGO bricks sorted and in order, so you always know where to find them.

836
Doors and windows

837
Wheels,
8 assorted

Fabuland

Stories to build

FABULAND® Sets for children from 3 years. A little society populated by friendly animal figures, who live in easy-to-build houses.

The animal figures each have their own name and personality. They all have tools or equipment that indicate their personality and role in society, which makes playing even more fun. Big building elements make it easy for young children to make a setting for their FABULAND stories.

The FABULAND figures are fun to collect. And are therefore sold separately to make collection easy.

3678
The story of The Noisy Neighbours.
With Lionel Lion, the Mayor of FABULAND,
Dr. Lucy Lamb, Edward Elephant and Harry Horse

3672
The story of The Cooking Contest. Catherine Cat and Doctor Dog disagree over cooking. Mike Monkey restores peace

3667
The story of The Tasty Bread.
With Freddy Fox and Patricia Piglet

3666
The story of The Lazy Mouse.
Garage owner Billy Bear has trouble with Mortimer Mouse

3637
Gertrude Goat with her painter's truck, ladder and paint pot

3626
Roger Raccoon with his sports car, oil can and wrench

3627
Bonnie Rabbit has a truck laden with flowers

3638
Buster Bulldog and fire engine. Ladder turns, goes up and down

3669
The story of The Naughty Raccoon.
Bulldogs Bertie and Barty have trouble with Ricky Raccoon

3654
The story of The Flower Garden.
Lisa Lamb's country cottage

A small piggy bank with a pink face and yellow hooves is sitting on a red wooden cart. The cart has a single large yellow wheel and is carrying a red bowl and a black pot. The background is a solid green color.

3-7 years

Storybook

The story inside the bigger sets

Each of the bigger FABULAND® sets includes a read-aloud story about the animals. This story is also an easy-to-follow building guide, as these sample pictures show.

The story is ideal for reading aloud. And it has lots of colourful pictures for the child to enjoy.

3787
Hannah Hippopotamus, the head gardener of FABULAND

3788
Paulette Poodle in her living room

3701
Charlie Cat with his fishing rod and frying pan

3703
Peter Pig the cook with his soup pot and ladle

3704
Majorie Mouse, the little housewife with her vacuum cleaner

3706
Ernie Elephant, the street sweeper with his broom

3707
Clara Cow with her gardening tools

3708
Robby Rabbit, the baker's boy

3709
Henry Horse, the carpenter

3710
Peter Panda takes a bath

Here are the FABULAND® figures sold specially for collecting. All with tools and equipment.

★ New 1983 - Available June

5-12 years

Ships

Ship Ahoy!

LEGO® Ships are made for sailing. They sail all waters. Imaginary as well as real. Including bathtubs. They are also made for building and rebuilding. There are working parts, like hoists and winches. And a full crew.

The fire-chief of the fire fighting vessel. Ready to fight fires with his hose.

4025
Fire fighting ship. Well equipped with foam guns and water guns, axes and oxygen tanks. Two firemen and a captain form the crew

4015 Freighter.
The midsection has a loading hold with hatch cover. The crane can load and unload the cargo

4005
Ocean going tug. There is a tow line with hook and equipment for the captain like a "walkie talkie" and a wrench

5-12 years

LEGOLAND®

The town where you alone decide

LEGOLAND® Town. The exciting collecting line for building up your very own town. Novelties this year include the impressive new police station. With new sliding doors for speedy turn-outs, and a new police motorbike. All LEGOLAND Sets include building instructions.

6650
Fire truck. Fireman and hose ready for action

6651
Post Office van. With postman to empty the post box and deliver letters

6652
Dumper. A 6-wheeled heavy-duty dumper and driver

6382
Fire station. Two fire engines with roll-out hoses. Double-length ladder for rescue actions high up. Sliding doors to garages. Furnished office and room for crew inside

6371
Service station. With working car hoist for repairing cars. New motorbike and 3 lane roadway

6384
Police station. With car, helicopter and new motorbike. New transparent blue skylight, siren, sliding door and "search light". Cockpit of helicopter opens. Building contains office and jail for suspects

6372
Villa. Furnished kitchen and sitting room on ground floor. Bedroom upstairs. Barbecue in the garden

6374
Holiday home. With new sliding patio roof. Kitchen, sitting room and bedroom upstairs. Grill in garden. New skylight window opens

★ New 1983 - Available January

6678
Excavator. With rotating cab and crane
jib. Spring-loaded grab

6680
Ambulance with stretcher and 2 bearers

6683
Hamburger stall. With chef and customer

No town is complete without a
hamburger stall.
Including LEGOLAND® Town.

5-12 years

Real roads for a real town

What is a town without streets?
The LEGOLAND® roadplates give your town not only streets, but also pedestrian crossings and lots of space for buildings, roadsigns, trees and much more.
There are 4 different roadplates for realistic town-planning.

6000
LEGOLAND Ideas Book
84-pages of building
and play ideas.

6362
Post Office. With counter, sorting room,
letter box and postman

6363
Repair shop. With car hoist and tools plus
tow truck

6623
Police car
with "lights" on top and driver

6364
Medical centre. With office and doctor's
room, nurse, car and doctor

6365
Cottage. With kitchen, sitting room and
sunshade in the garden

6624
Parcels Van.
The rear door lifts to receive goods

6690
Fire hoist with lift on turntable and
2 firemen

6654
Motorbike transporter with new speedway
motorbike and rider

6653
Motorway maintenance. With
emergency "lights" and traffic signs

6691
Red Cross helicopter with 2 pilots and
stretcher

6692
Articulated Lorry. Cab tips forward for
repairs. Trailer uncouples

6305
Trees and flowers

6306
Road signs

300

Raise the Drawbridge!

With its towers, drawbridge, knights, horsemen and horses, this castle gives a real opportunity for heroic battles and noble deeds.

6629
Red Cross car with nurse

6681
Police Van. With road cones and barrier

6685
Fire helicopter. For fighting fires from the air

6302
6 LEGOLAND People

6628
Tow truck with hook

6630
Digger with driver and tools

6606
Road works barrow with road cones and barriers

6607
Street cleaning car to keep LEGOLAND Town tidy

6608
Tractor and driver

6611
Fire Chief's car with walkie-talkie

375
LEGOLAND Castle. With 14 Knights, 4 on horseback

5-12 years

LEGOLAND®

Beyond the stars...

With LEGOLAND® Space you can launch your own adventures in outer space. You can land on distant planets, send out the astronauts in surface-going explorer vehicles, or probe even more remote planets in the new 3 stage Starship.

Look! Planet craters

Planets have strange, cratered surfaces. You can create your own planet-scape with the special LEGOLAND Space baseplates.

6970
Command centre. With launching pad, control panel, monorail and 4 astronauts ready to explore distant planets

6930
Mission Control Centre. With control room, hinged roof and landing pads for 2 space scooters. Vehicles can drive right under the landing pad

6980
Starship "Explorer".
Huge 3-stage spaceship with mothership, space lab and transport unit

6950
X15 satellite launcher. With instrument panel, launch gantry, 2 astronauts and go-anywhere wheel bogies

6929
Space transporter. Separate container unit stowed in back behind swing gates. Cockpit opens from top. Adjustable "droop snoot" nose cone

928
Space cruiser. With Space baseplates, radar control and astronauts. Space cruiser has transparent, hinged, cockpit cover for EVA (Extra Vehicular Activity)

6927
Mobile tracking station. With separate lab which is de-coupled by swinging rocket engines aside. Roof can be opened

★ New 1983 - Available February

6803
Space patrol craft.
Astronaut with camera

The new Mission Control Centre is built on these new strut units which have all sorts of uses in other models too.

6801
Space Scooter.
The astronaut has a walkie-talkie

6842
Inspection spacecraft.
For quick inspection of unknown planets

6844
Explorer vehicle. With metal detector and parabolic scanner

6701
6 Astronauts with scientific equipment

305
Crater plates (2).
Four make a complete crater

306
Baseplates with landing strips for spaceships

6890
Explorer & shuttle. Shuttle docks in orbiting Delta Craft. Cockpit cover hinges

6860
Mercury Surveyor with articulated grabs for collecting samples. And 12 wheels.

886
Space buggy.
All purpose, one-man vehicle

6821
Lunar rock collector with jointed grab for collecting samples

6822
Space grab. Powered sledge with jointed grab

6823
Survey vehicle. With metal detector and storage unit

897
Mobile rocket launcher. With orbiting satellite and radar tracking

6870
Spacecraft launcher. With launching ramp for one-man spaceship

6-14 years

Railways

4.5-volt Battery powered trains

A whole world of exciting trains, layouts and functions. A rail system which fits with your LEGOLAND® models. You can start your collection with a 4.5 volt battery operated train, adding rails, points, signals, stations, people and extra rolling stock as desired.

7720 Battery train set. Diesel locomotive with 3 waggons, inc. battery waggon. Track 70x95 cm, 3 figures, truck, platform, crossing, signal and shunt posts for change of direction. Can be turned into electric train by adding 12 volt motor, transformer and conductor rails. Building instructions for main and extra models

7710
Train set without motor. Locomotive and 2 coaches, 5 figures, platform and track (70x95 cm). Battery or electric motors can be added. Building instructions for main and extra model

7850
Straight rails.
16 rails + 16 sleepers = 100 cms

7851
Curved rails.
16 rails + 16 sleepers = half circle

7852
Points. 1 left + 1 right. For train without motor and battery train

7853
Crossing. For train without motor and battery train

Change the signal and the train stops automatically.

Automatic shunting. A trip post flicks the switch from forward to reverse.

Get battery power:
The train without motor is simply changed into a battery train by adding the 4.5-volt motor (No. 107. Page 14) like this:

In the same way a battery train or train without motor is turned into an electric train by adding the 12-volt motor and transformer and conductor rails. (Nos. 7865, 7864, 7854 and 7855. Page 29 and 30).

The magnetic coupling system is very simple because the magnets turn themselves automatically to the right position.

8-14 years

12 volt Electric Trains

The 12 volt electric LEGO® train system offers all the technical excitements and fascinating details you can imagine.

Remote control switch panels for points, signals and the new level crossing simply clip onto the LEGO transformer No. 7864.

The trains have passengers inside, head and tail lights and there are new lights for station platforms too.

7858
Remote controlled point, right, for electric trains

7859
Remote controlled point, left, for electric trains

7860
Remote controlled signal with coloured lights and isolating track

The track system clips together so firmly that you can hang it on the wall when not in use.

7740
Electric Inter-City train set with locomotive and 2 coaches. Platform, track (70x103 cm), 10 figures. Figures can be placed in coaches through roof. Doors can be opened. Locomotive has head- and tail lights. Building instructions for main and extra model

Night trains

Locomotives and coaches can be illuminated. Simply by building light conductors and light bricks into the model like this:

Lamp posts, stations and houses are also lit by simply connecting light bricks to the 12 volt transformer.

7861
Electric lighting set (12 volt).
For locomotives and coaches.

7862
Remote controlled decoupling for electric trains

7863
Electric remote controlled points motor for
7856 points only

7864
12 volt transformer/controller. (Can also be used with TECHNIC 12 volt
motor No. 880. Page 34).

7865
Electric train motor (12 volt) with pick-up shoes. Can be built into train
without motor and battery trains

7755
Electric Diesel locomotive. Doors open.
Roof lifts so figure can be placed inside. Lanterns at front and
back can be turned so red or white light matches direction of the train

7721
Electric Goods Train Set. Steam locomotive, 2 flat bed waggons with
4 different loads. 1 goods wagon with new sliding doors and fork truck. Track 70x82 cm

7725
Electric passenger train set.
Passenger train with driver. Track 70x70 cm. Doors can be opened.
Light can be added. Building instructions for main and extra model

8-14 years

7777

More Railway ideas

The 84-page Railway ideas book gives lots of ideas and instructions for models and track layouts.

Converting track for electric trains

Both battery and electric trains run on the same track system. For electric trains simply clip conductor rails down the middle like this:

7854
8 straight conductor rails for electric trains. 100 cm

7855
8 curved conductor rails for electric trains. 1 half circle

7856
Points (1 left + 1 right) for electric train. Manually operated. For remote control add points motor 7863

7857
Electric crossing

7866
Remote controlled automatic level crossing. Barriers operated via remote control unit connected to transformer. When barriers are lowered the red light flashes

7867
Lamp posts. With 4 electric lamps.
For use with 12 volt transformer

7838
Goods loading terminal. Wagon with 2 silos that tip to both sides.
Crane that moves back and forth. 3 figures and control tower

7824
Railway station. With ticket office, phone booth, coffee bar,
control tower, waiting room and mailbox. Includes 9 figures

7834
Level crossing. Built on LEGOLAND
roadplate. With ordinary rails +
conductor rails. Can be used for all
kinds of trains

7814
Breakdown crane with 2 figures.
Crane rotates. Hook and jib go up
and down

7819
Mail van. With sorting office and storage room.
Pallet with parcels. 1 figure. Building instructions
for main and extra model

7821
Maintenance wagon.
With lamp post and turnable platform. 2 figures.

7815
Sleeping car. With 4 berths. The 2
upper berths can be raised upright.
Wash room between the 2 sleeping
compartments, 2 figures.

7818
Passenger coach with 2 figures. Doors can be
opened and roof lifted. Building instructions
for main and extra model

6-14 years

Railway Accessories

All these sets can be used with all
LEGO® trains, battery or electric.
They add so much extra fun to
your layout.

7-14 years

Technic

Discover the basics of engineering

TECHNIC Universal Sets offer a challenging construction system for building many working models. The beams, gears and other technical parts help you understand how things work in real life. The sets all include construction plans for 5 models. And from there your imagination can take over.

NEW

TECHNIC Ideas book

8888
100 pages of exciting working models.

8090
From 9 years and up. For building working models like a car with steering, suspension, piston engine and differential gear. Helicopter with rotorblade, or crane with working grab.

8050
From 8 years and up. With battery motor for building into cars, helicopter, crane, robot etc.

8030
From 7 years and up. An excellent entrance to the TECHNIC Programme. With lots of possibilities for building a car with steering, or mill with sails etc.

These examples show some of the things you can do with TECHNIC elements. Long beams are connected side by side with special bushes for

strength. Rotary motion is transformed into a piston movement. A crown wheel transmits drive to two shafts via cogs.

New 1983 - Available September

9-14 years

TECHNIC models

The TECHNIC programme offers a lot of exciting model sets. Once you've built a model you can take it apart and build something quite different. All sets include building instruction for at least 2 models.

TECHNIC elements also fit with your LEGO® bricks, which give even more building possibilities.

8860
Car chassis. With steering, adjustable seats, suspension, 4-cylinder box engine with fan, and differential gear. Building inst. for 2 models

8846
Recovery vehicle with winch. Steering. Crane in back. Lift for wrecked cars. Differential gear. Building inst. for 2 models

8859
Tractor. Piston-engine under lifting bonnet. Plough can be re-built as a harrow

8848
Tipper lorry. With steering, tipper load with side flaps. Differential gear. Scoop can be turned into snow plough or harvester. Building inst. for 2 models

8844
Helicopter. Working rotor and rear stabiliser. Retractable undercarriage. Building inst. also for a Gyrocopter

8845
Beach buggy. With steering and springs. Building inst. for 2 models

850
Fork lift truck. With separate steering on back wheels and working fork. Building inst. for 3 models

854
Go-Kart. With steering and 1 cylinder rear engine. Building inst. for 3 models

856
Bulldozer. With caterpillar tracks, working shovel. Building inst. for 3 models

7-14 years

Make the most of your **TECHNIC** collection

Once you have built the **TECHNIC** models in your sets, you can get even more building possibilities by enlarging your collection with special items like a motor and gearwheels. These - and other **TECHNIC** elements - can be bought separately at your toy shop or from our Spares Service.

The **TECHNIC** motors

You can power your working models with a special battery motor 8700 (batteries not included). Or, if you have a 12-volt transformer, you can use the **TECHNIC** electric motor 880.

8710
TECHNIC elements

872
Gear blocks. 2 gear blocks for easy gearing down of battery or electric motors by 1:20.

880
12-volt electric motor. Can be used with LEGO transformer 7864

8700
Battery motor. Can be built into all models. Switch for forward/reverse operation.

LEGO® Spares Service

If you lose a special part or want an extra one this service can help you.

The selection shown here has the parts you will be most likely to want.

We cannot supply complete LEGO® sets, as these can only be bought from toy shops. But if you particularly need a component not shown here, just write to us, and we shall do our best to help you if we can.
