

LEGOLAND®

LEGO® Toys.... The Toys That Are New Everyday™

IMAGINE... a toy so uniquely designed that it can open the door to a world full of creative possibilities. A world full of learning experiences – and endless hours of fun for your child! LEGO® Toys can open that door – not just once – but each and every time your child plays with a LEGO Building Set.

We know how important play is to your child's growth and development. That's why building with LEGO bricks encourages children to develop their own individuality while allowing them to achieve a sense of pride and accomplishment.

And that's just the beginning! LEGO Toys grow as your child grows! The LEGO Building System offers a full range of sets that start from the time your child is a pre-schooler, with DUPLO® Sets, right

up into the teen years with the realistic EXPERT BUILDER® Series. An added feature of the LEGO Building System is that all the bricks from the various sets work together. New sets can be combined with old sets for added play value and expanded building possibilities.

Please take a few minutes to read the following pages to find the Building Set that's just right for your child. We know you'll agree – LEGO Toys are no ordinary toys!
