

LEGOLAND®

LEGO® Toys... The Toys You Grow Up With™

Imagine ... A system of toys for every age where the pieces from all the sets fit together. That's the LEGO® System - the building toys children can add to, rather than outgrow. The LEGO building system has toys for every age and every stage in your child's development, starting from the time your child is a preschooler, with DUPLO® Sets, right up into the teen years with the realistic TECHNIC Sets.

Special Pieces ... The added plus of the LEGO® building system is that the special pieces from the various sets work together. New sets can be combined with old sets for added play value and expanded building possibilities. Imagine ... A toy so uniquely designed that it can open the door to a world full of creative possibilities. A world full of learning and endless hours of fun for your child! LEGO Toys can open that door - not just once - but each and every time your child plays with a DUPLO or LEGO Building Set.

We know how important play is to your child's growth and development. That's why building with DUPLO blocks and LEGO bricks encourages children to develop their imagination while allowing them to achieve a sense of pride, individuality and accomplishment.

Please take a few minutes to read the following pages to find the Building Set that is just right for your child. We know you'll agree - LEGO Toys are no ordinary toys!

In order to preserve product quality, do not store or wash your DUPLO® and LEGO® bricks above 110°F.

LEGOLAND®

Ages 6-12

The LEGOLAND® Series Opens Up a Whole New World of Endless Building Possibilities!

Collect all three LEGOLAND® Environments ... Town, Space & Castle! There are many exciting sets to choose from. Each new addition - whether it's a small or large LEGOLAND set - will increase the play value of your entire collection. All LEGOLAND sets are designed to the same scale so that they can be combined and played with together. Collecting and combining the different LEGOLAND sets is as much fun as building them!

Look at all the exciting models that just one set can build!

Each LEGOLAND set is so versatile, you can build the main model and then start again and build all these exciting models (and more!). If just one LEGOLAND set can build all these models, imagine the unlimited building possibilities a whole LEGOLAND Collection offers.
