## LEGO® Toys - Exciting Building year after year

The LEGO® System has building toys for every age and stage of your child's development. Each set provides a unique building challenge and a lot of fun.

DUPLO® sets provide big blocks for little fingers. Later on, these blocks can be connected *directly* with LEGO Basic bricks, or Basic sets can be used alone to build imagination and creativity.

For older children, LEGOLAND® sets, Trains and Boats add to the challenge with step-by-step instructions for themed building and action play. TECHNIC and Model Team sets add functional elements to challenge the most experienced builders who rely on the same skills learned as a young builder.

The LEGO System is the only building toy where the DUPLO PreSchool blocks will fit *directly* to the LEGO Basic bricks – so it's the only system your children can add to rather than outgrow.

**Ages 6-12**

**LEGO Boats Trains**

The battery operated train and three boats are perfect additions to any LEGO® collection.

See page 18

**Ages 7-14**

**LEGO Technic**

More than a toy! This is exciting, realistic building with technically authentic pieces.

See pages 18-20

**Ages 9 and Up**

**LEGO MODEL TEAM**

Magnificent, large, detailed models for classic model building fun.

See page 21

In order to preserve product quality, do not store or wash your DUPLO® and LEGO® bricks above 110°F. Electrical parts are not washable.
