# LEGO® Toys - Toys That Build Imagination

LEGO® building toys are for every age and stage of your child's development. Each set provides a unique imaginative opportunity and a lot of fun. DUPLO® sets provide big blocks for little fingers. Later on, these blocks can be connected directly with LEGO Basic bricks, which come in a variety of all new sets which are great for storing and carrying. For older children, LEGOLAND® sets, Trains, and Boats add to the challenge with step-by-step instructions for themed building and action play. TECHNIC and Model Team sets add functional and realistic elements to challenge the most experienced builders. DUPLO PreSchool blocks will fit directly onto LEGO Basic bricks - so it's truly a system that children can add to rather than outgrow.
