# LEGO® Theme Sets – Toys to Build, Connect, and Collect

All LEGO® sets in this brochure are designed for imaginative builders from 6 years and up. Each set can build several different models – building instructions are enclosed for the main model and more building ideas will simply grow out of your own imagination. As you'll see, there are a wide variety of exciting themes to collect – and many different models in each theme. Find the themes you like best, collect all of the models in those themes, and build the collection of your dreams! And for something special, try building LEGO® TECHNIC models with realistic function and design.
