# That's what makes LEGO® Toys so special.

## Fun to build upon.

Lots of colourful bricks and pieces with many sounds and functions to explore. All ranges stimulate the child's development and make it fun to build and learn – at the same time!

For children between 0-6 years.  
SEE PAGES 4-15

It's a new toy every day.

More than ever the essence of free and creative building.

Many themes to choose from: Basic, Pirates, Castle, Town, Trains, Ships, Space, Model Team – plus the exotic new Paradisa. The Electric System in Basic, Town and Space adds fun and play value. For children between 3-16 years.  
SEE PAGES 16-40

Most toys have a limited life – the children simply outgrow them. LEGO® Toys, on the contrary, grow with your child – that's what makes them so special.

DUPLO® Bricks can be built together with LEGO® SYSTEM Bricks – which in turn can work with TECHNIC sets. From rattles to robots, no other toy system gives the imagination more to play with.

DUPLO and LEGO Toys can be washed by hand using warm water – max. 40°C (110°F) and washing-up-liquid.  
Storage temperature max. 40°C (110°F).  
Electrical parts are not washable.

The Electric System incorporated in several sets adds more fun and realism to play.

Basic, Town and Space: Flashing lights and twin-tone sirens powered by a 9 volt battery.

Trains: 9 volt transformer, Speed Regulator, electric rails, lights, motors etc.

TECHNIC: 9 volt motor powered by a separate battery box with "remote control".

## Get your brain in gear.

Advanced LEGO® builders will love the many gears, pistons, electric motors, pneumatics, compressors – even a programmable Control Centre is waiting to challenge you.

Add the Electric System – even your dad won't believe his own eyes or ears! For children between 7-16 years.

**NEW  
TOOLO**  
From 3-6 years

## The greatest invention - since the DUPLO® Brick!

With the revolutionary new TOOLO sets from DUPLO® your child can experience the thrill of building toys using a real "tool" – just like dad's! The specially designed screwdriver is safe and simple to use with its click-function which engages to prevent over-tightening of the screws. The screws are

permanently attached to the new building elements and can't come loose. Unique bars are the backbones of the many new TOOLO models, which can only be completed using the TOOLO screwdriver. Building your own toys has taken a new turn!

**2910  
DUPLO TOOLO Dumper Truck**  
with "real" rubber tyres.

**2940  
DUPLO TOOLO Fire Truck** with a  
fire hose and a fire pump with hook.

**2920  
DUPLO TOOLO Digger.** The bucket and arm  
can be rotated for unloading into the truck.

**2930  
DUPLO TOOLO Mobile Crane.**  
The crane moves up and down  
and rotates on the turntable.

1. The sturdy screws can't fall out of the TOOLO elements.
2. Loosen the screw turning the screwdriver to the left (unlocked).
3. Connect the elements and tighten the screw turning the screwdriver to the right until it "clicks" (locked).

# PIRATES

From 5-12 years

## Follow the dotted line to the gold!

If you treasure adventure, this is the place for you.

Governor Broadside from Fort Sabre is facing tough times.

Admiral Woodhouse thinks that Broadside is a fool the way he deals with the pirates – led by the dreaded Cap'n Roger and his men aboard the Dark Shark.

If you want to help Governor Broadside you'd better find the treasure before the pirates. Can you spot it in the large picture to the right?

PS. These ships "sail" across the carpet rather than float on water.

# TRAINS

From 6-12 years

**The fastest play-train in town  
- don't miss it!**

This Play Train is the fastest you have ever seen – no matter which direction you prefer to travel. The secret is a 9 Volt Speed Regulator and a powerful engine.

Electric pick-up is through the trains' metallic wheels, simple and reliable.

Building is easy as the new conducting rails connect with a "snap". Naturally all trains – even the Starter Set – can be built into many different trains. Otherwise they wouldn't be LEGO® SYSTEM playtrains!

## Combine your potential with these models'!

The new compressor truck can't be described in words – you simply have to see and hear it!

An electric motor combined with a miniature compressor and valve-activated pneumatics are new dimensions to TECHNIC builders, taking you one step closer to reality. Just like completing the construction makes you feel six feet high!

Four pneumatic levers control the crane movements when pushed → forward or ← backward.

**CRANE:**

← turns right  
→ turns left

**ARM:**

← raises  
→ descends

**JAWS:**

← pull up  
→ move down

**JAWS:**

← close  
→ open

## Don't forget to read the building guide!

The TECHNIC JCB looks complex... and so it is with so many functions to perform.

To make sure that you perform equally as well, a comprehensive building guide is included in each TECHNIC set for more models, so you never run out of inspiration

## Teach your TECHNIC models to think!

With the programmable 9 volt Control Centre.

Featuring dual memories, repeat mode, pause function and a flat control pad anything goes – just the way you had in mind!

Two electric motors are included in the set. You can even add a third motor to the colour-coded control terminals.

8094

**TECHNIC Control Centre.** Contains a programmable Control Centre, detailed instruction manual, two 9V motors and numerous components to build four exciting, working models. Six 1.5 volt batteries (not included in the set) power both the Control Centre and the electric motors. Use ordinary alkaline batteries size LRI4/AA.

Watch the crane while its arm repeats every movement you just told it to do.

The drawing-machine is pure magic – apparently it makes sketches all by itself. But you made the original!

The robot arm can be programmed to grasp a brick, lift it – and gently lower it into one of the two containers. All by itself.
