SAFETY FIRST

How to choose the right LEGO Toy.

LEGO building sets are specially designed for every age and stage of your child's development. Each set provides a unique building challenge with the emphasis on FUN! While no one knows your child as well as you do, please take a moment to review age guidelines when you are ordering.

WARNING:

An Important Safety Message to Parents. LEGO SYSTEM and LEGO TECHNIC sets contain small parts. These sets are NOT suitable for children under 3 years of age. DUPLO sets have larger pieces which are specially designed for children under 3.

Guarantee

At LEGO Toys, we're not completely happy unless you're completely happy. We know that you'll be totally satisfied with your order. But if there's any reason that you're not, simply return it to us for replacement, exchange or prompt refund.

A. MY FIRST POWERED TRAIN SET

The new battery powered DUPLO Play Train can go everywhere — runs on the track and directly on the floor. See the fun your young engineer will have making the train run and stop, go backwards and automatically change tracks. And to add to the fun, each of the four functions responds with its own unique sound. Unlike ordinary toy trains, your child builds both locomotive and wagons and then can redesign them their own way!

Power Saving Design.

The battery train will run at least 8 hours on 3 AA alkaline batteries (batteries not included). Four different sounds indicate the different functions this engine performs: start, stop, reverse and the power saving automatic power down. This power saving feature goes into action when the train has not been activated by your child for two minutes.

Look At This Action!

Control the train in three different ways: push the stop/start button on top of the locomotive, switch the reverser bar to change the train's direction, or put down a stop/start rail to make your train stop at a special place.

Make Your Railroad!

This deluxe set includes enough track to make an extra big 41" x 19" oval layout, manually operated start/stop rail, two pole reversers and DUPLO blocks to make a control tower and station.

Authentic pieces, realistic models & MOVEMENT
Each set includes building instructions for at least two models!

A

A. TECHNIC UNIVERSAL BUILDING SET WITH FLEX SYSTEM.

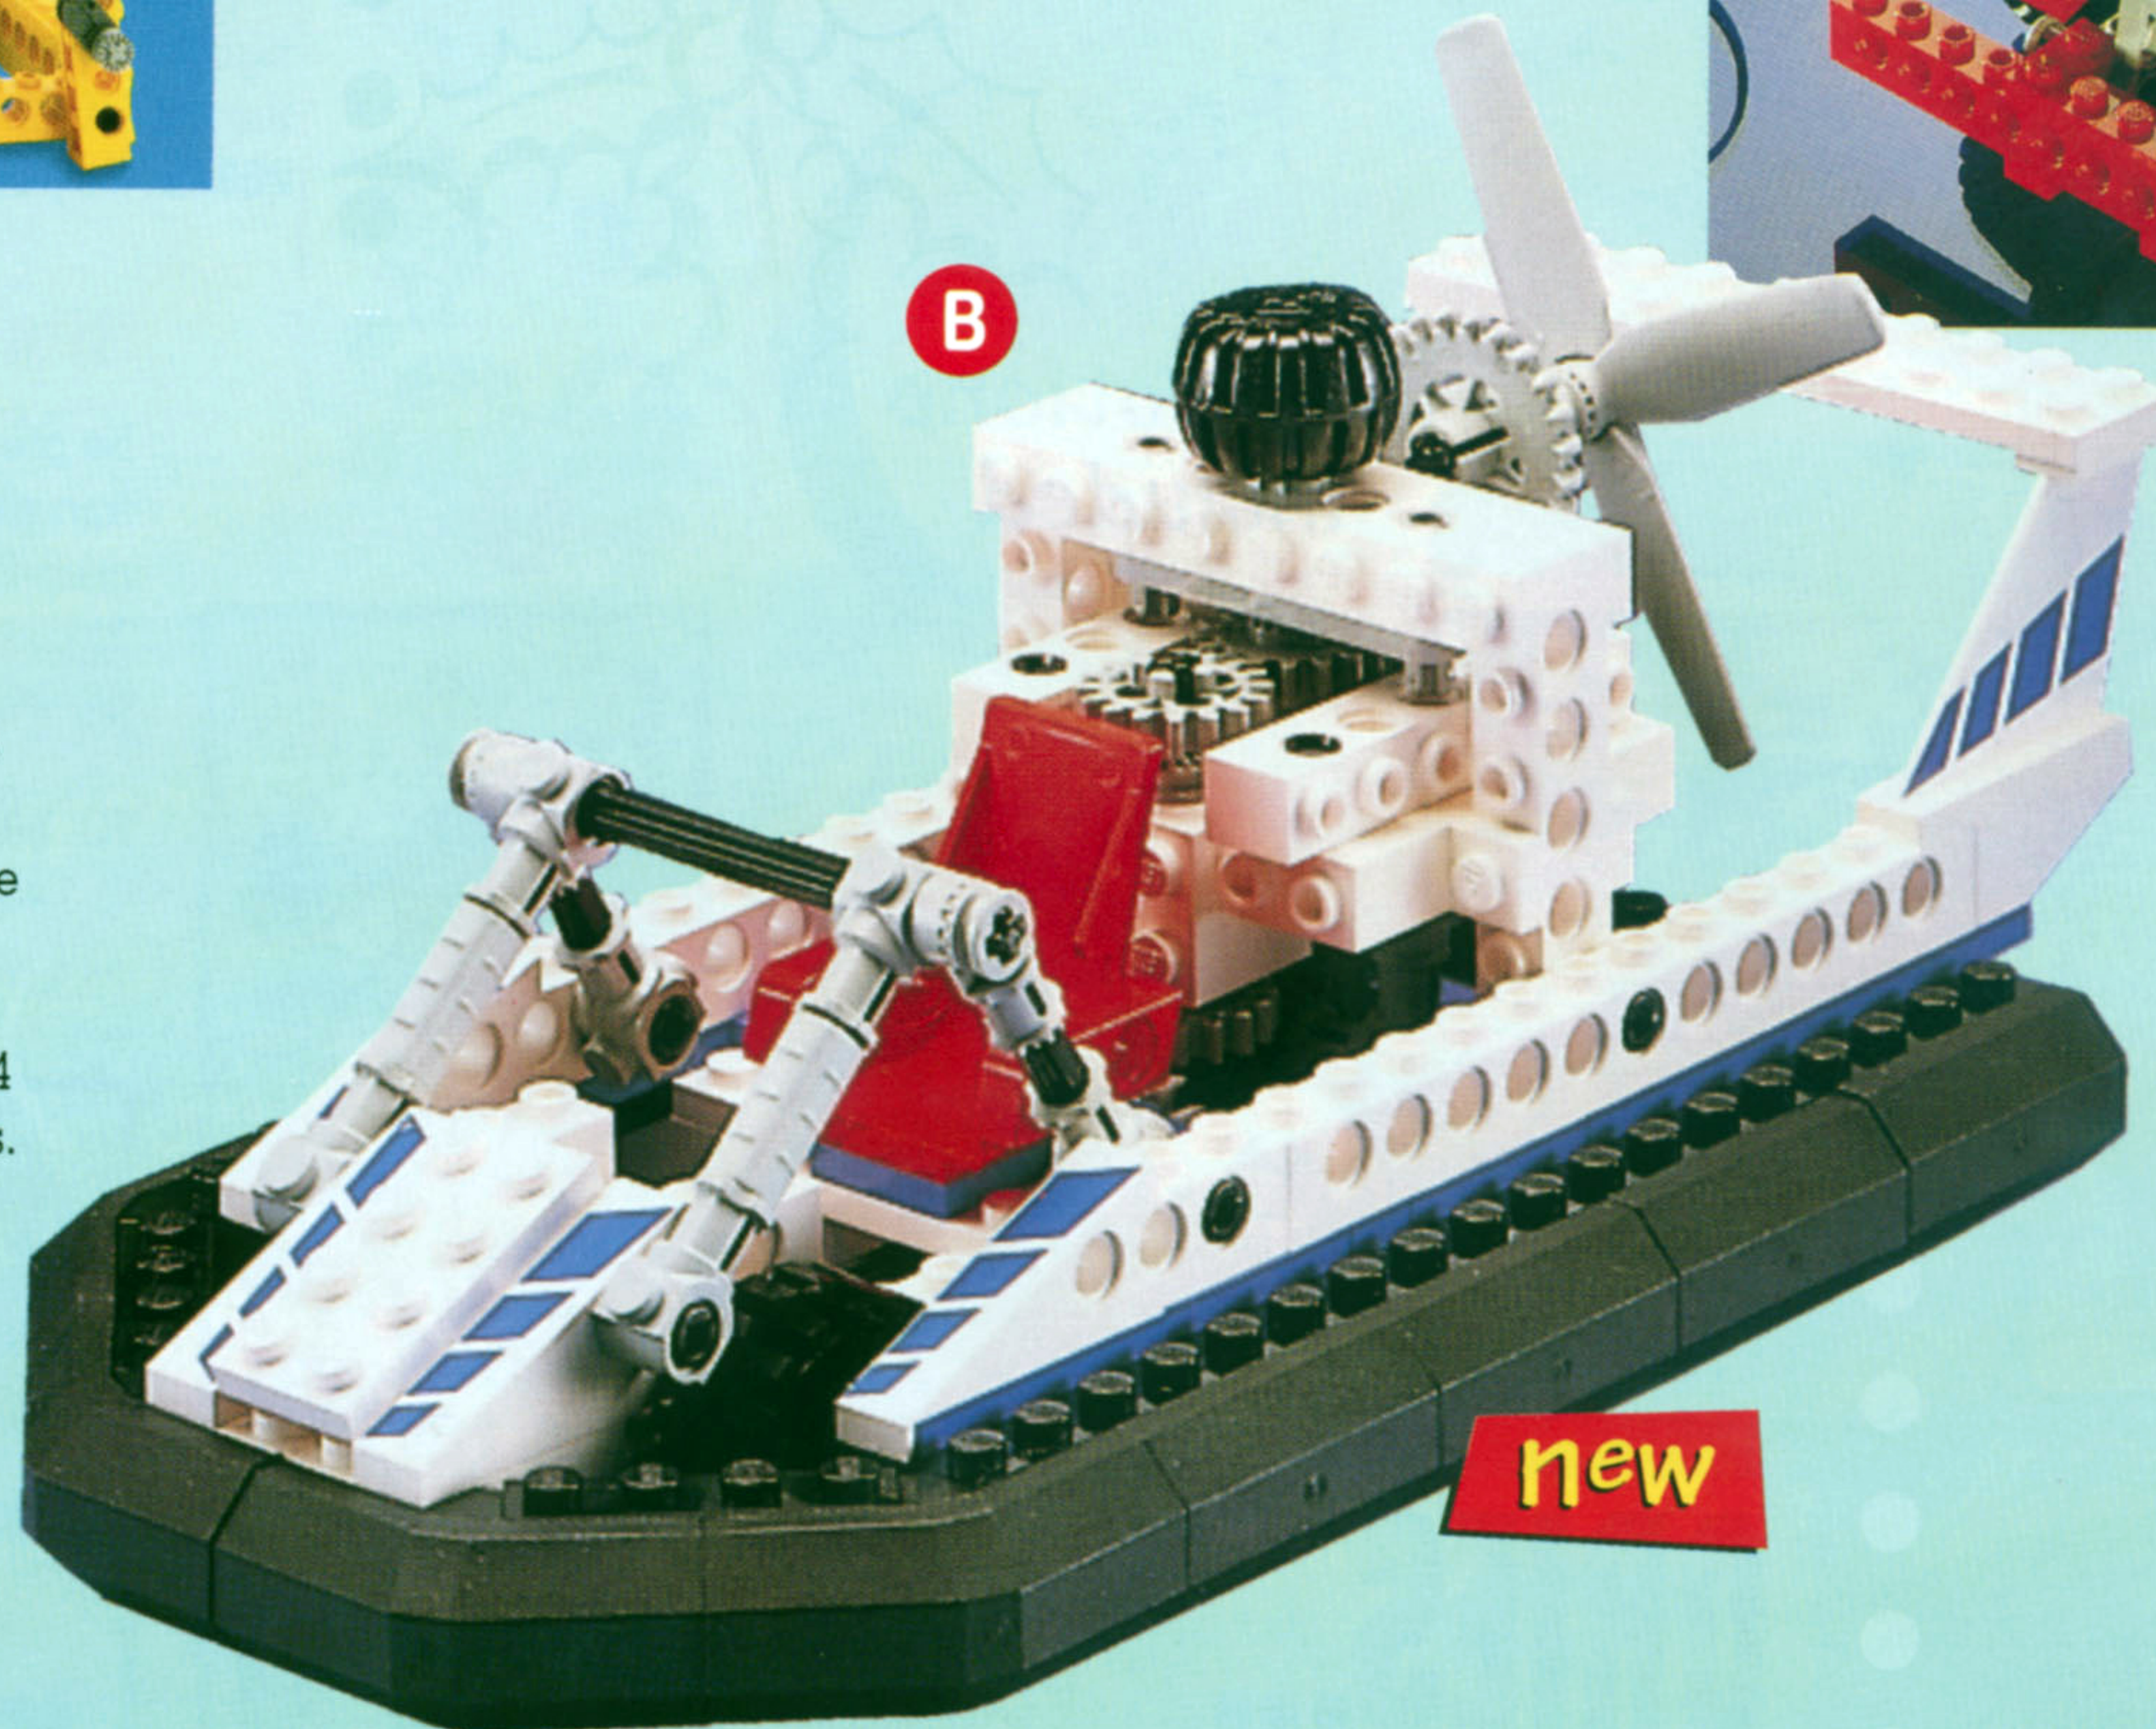

Build models that lift, turn, grab and hoist with the Flex System connecting cables. The flexible plastic cables operate like the gear-shifting cables on a 10-speed bicycle. Cables can also be used to give structural support and can curve around and through your models to give added building possibilities. Building instructions for 4 different models included. Ages 9-14. 298 pieces. #8074 Universal Building Set with Flex System. \$46.00

B. TECHNIC HOVERCRAFT.

This Hovercraft is built for speed and lots of action. Features realistic steering, propellers that turn, soft fenders that protect its edges, and much more. Imagine the adventures you'll have! Instructions included for building a Helicopter with rotor blades! Ages 8 & up. 191 pieces. #8824 Hovercraft. \$24.25

C

C. MOTORIZED TECHNIC UNIVERSAL BUILDING SET.

Motorized action and fun comes alive with the new Technic 9 volt motor. Create models with real-life moving functions—Tow Truck, Helicopter and racing car are just a few of the models built with this set. Building instructions for four models included. Ages 9-14. 211 pieces. #8064 Motorized Universal Building Set. \$54.00

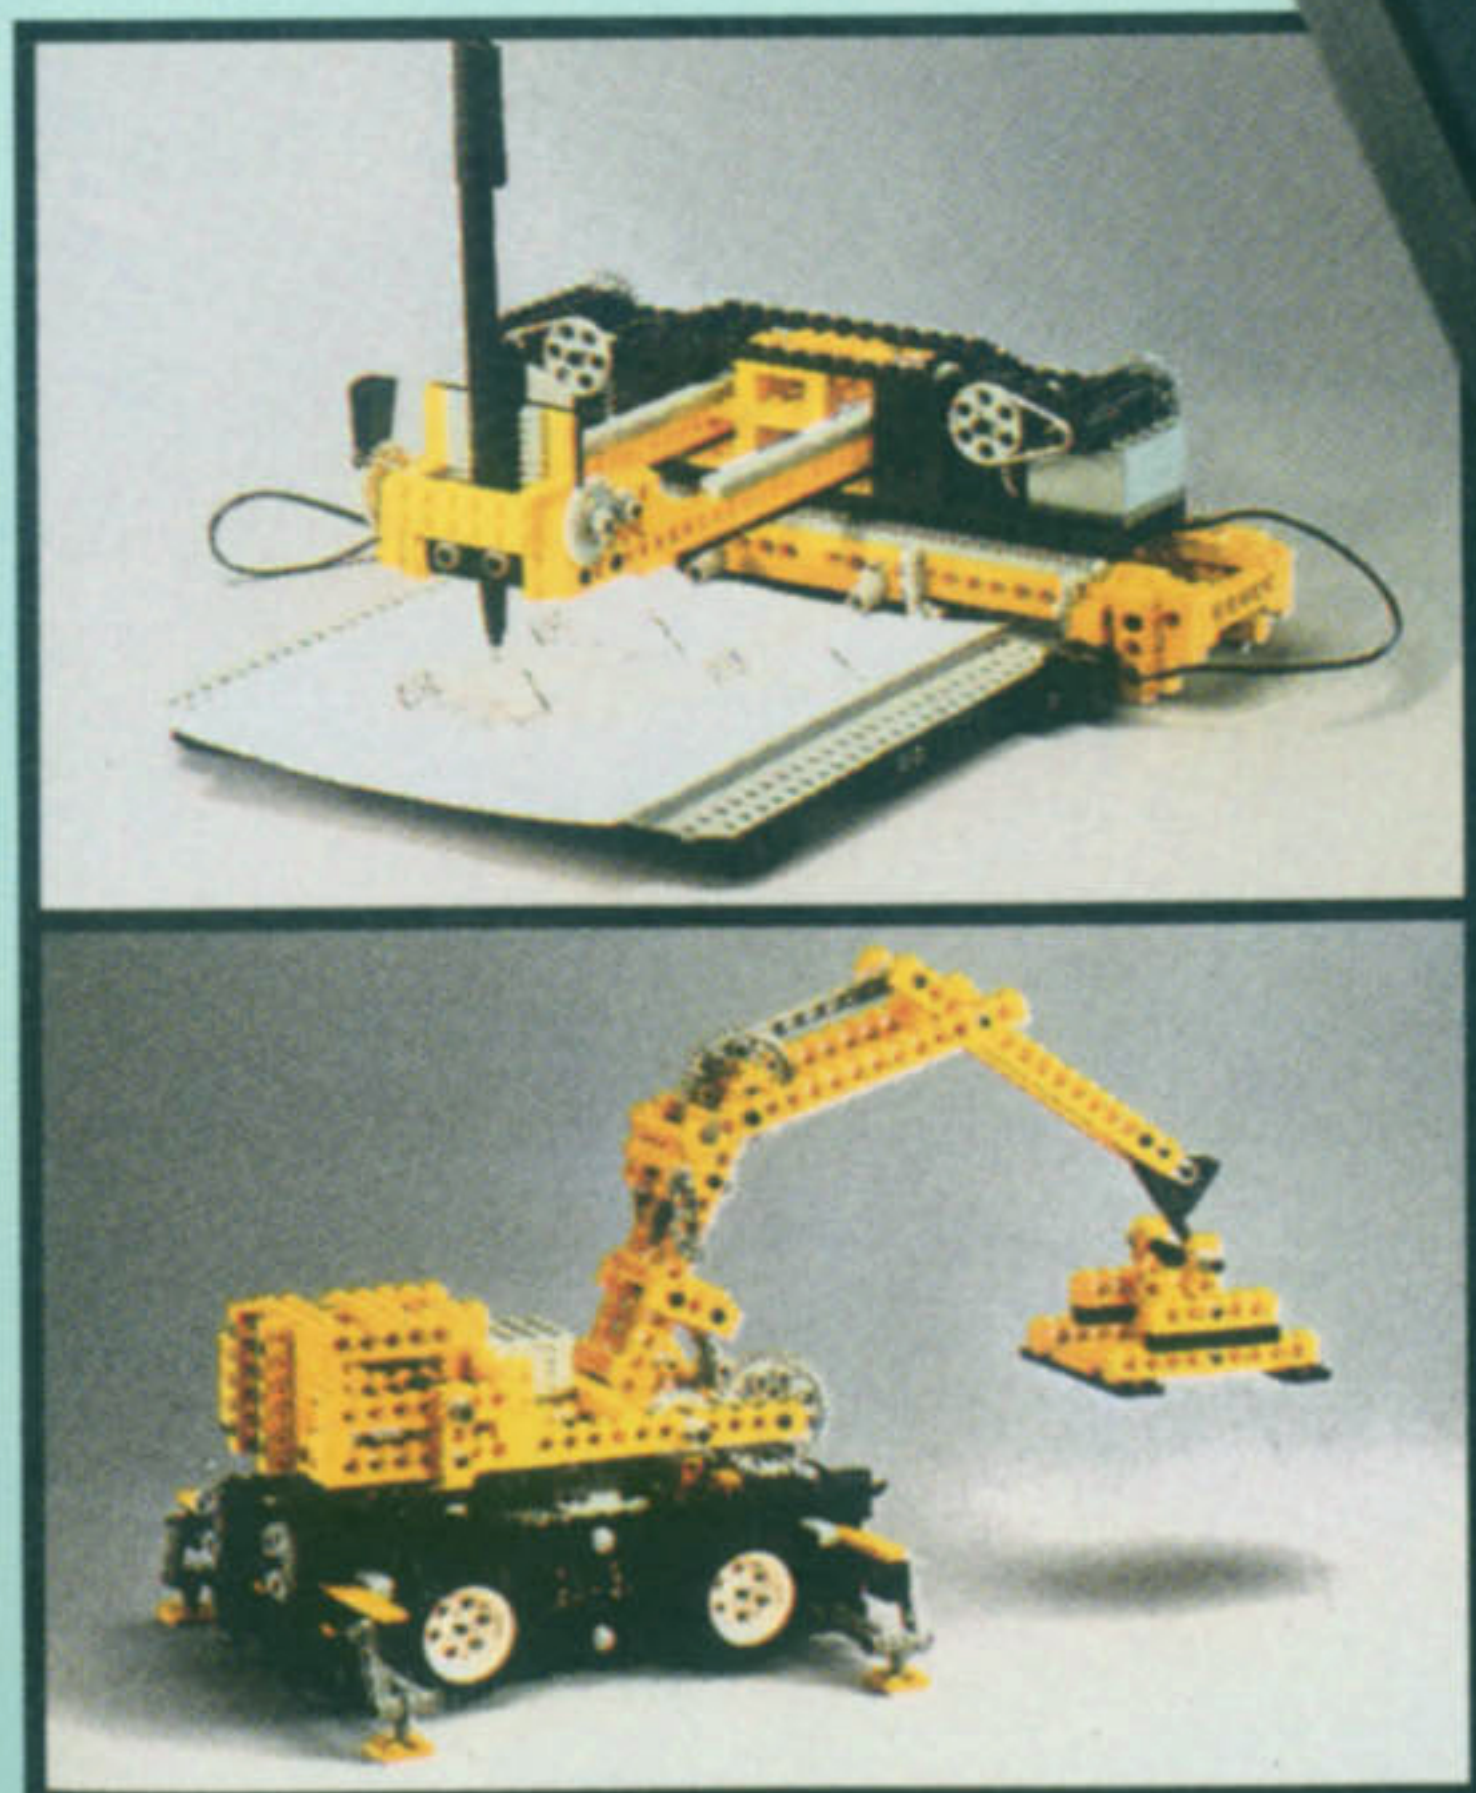

D

D. TECHNIC CONTROL CENTER.

Invent your own remote controlled models with this set. The TECHNIC Control Center with dual memories, repeat and pause functions works like a computer. Program your model to move from a series of commands. Then, set them in motion again with a touch of one button. Two 9-volt motors provide power to your models, and the turning platform helps increase your model's mobility. Instructions included to build 4 models—Robot, Turtle, Drawing Machine, and Portable Crane. Batteries not included. Ages 11 and up. 554 pieces.

#8094 TECHNIC Control Center. \$199.00
