

A close-up photograph of a complex LEGO Technic assembly. The structure is built primarily from black Technic beams and connectors, with several bright yellow Technic bricks and white Technic connectors and pins. A large white propeller is attached to the left side of the assembly. The background is a solid, deep blue color. The LEGO logo is in the top left corner, and the word 'Technic' is written in a large, white, sans-serif font across the top. In the bottom left corner, the text '113517/113617-US' is visible.

## HIGH TECH BUILDING WITH LIFE-LIKE FUNCTIONS!

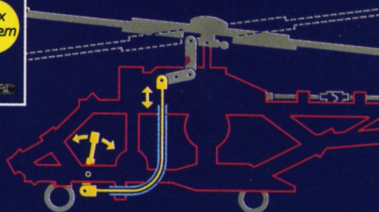

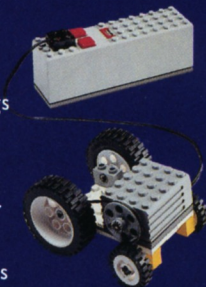

You know how much fun it is to build with the LEGO SYSTEM™ Town, Castle, Pirate, and Space sets. Imagine yourself building models that not only look real, but work like the real thing too! Build working functions into your creations with springs, pistons, gears, beams and more!

**FOR NEW LEGO® TECHNIC BUILDERS (7 years and up).** LEGO® TECHNIC sets feature realistic models that are fun to build, display, and play with. You can see how your models actually work! Perfect for beginner LEGO® TECHNIC builders.

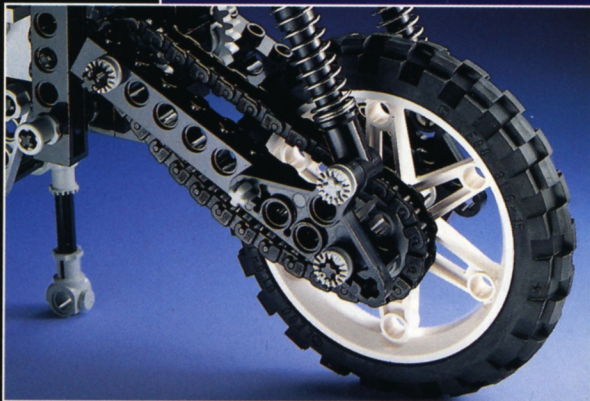

**FOR ADVANCED BUILDERS (9 years and up)!** Step up to models that allow you to experience building with the flex, pneumatic, and electric systems! Build bigger, more awesome models that work and move like the real thing! Turn the wheel and fly the Whirlwind Rescue, lower the gear and land the Sky Ranger, or push the pump and watch your pneumatic model move with the power of air! Whichever set you choose, you'll be proud to display and show off your working creations with LEGO TECHNIC.

The power pack brings your creations to life! Add the motor to propel your car forward, turn your helicopter's rotors, or move your crane's winch! This easy to install accessory works on most LEGO TECHNIC items (check packages for details).

Check out the flex system cables (included in marked sets) to reinforce your models, or to create unique movement in your models. Flex cables work like bicycle shifting cables to turn rotors, move wing flaps, and retract and extend cranes.

Use the power of air in your models for lifting, pushing, opening and closing! The pneumatic system uses miniature air pumps and hoses to harness the power of air pressure. Push the pump, and something amazing happens. Flip the switch, pump again, and your model moves in the opposite direction!

**WARNING: AN IMPORTANT SAFETY MESSAGE TO PARENTS.** LEGO TECHNIC sets contain small parts that are NOT suitable for children under 3 years of age. DUPLO sets have larger pieces which are specially designed for children under 3. Please follow indicated age recommendations when purchasing LEGO sets.

### Dear Parents and Children

With every purchase of a DUPLO and LEGO SYSTEM™ product you'll not only buy a creative, fun, quality toy, but also our commitment to service. We're only a phone call or letter away if we can help with product information or service.

New LEGO® TECHNIC Builders from 7-14 years  
**Discover the world of realistic  
 models with life-like functions!**

104°F

LEGO® TECHNIC toys can be washed by hand using warm water – max. 104°F – and a mild liquid dish detergent. Storage temperature max. 104°F. Electrical parts are not washable.

**8815** From 7-14 years

**Speedway Bandit.** Build an engine with a moving piston into this race car with adjustable steering and real rubber tires! Alternate model shown above.

**NEW!**

**8022** From 7-14 years

**Universal Starter Set.** Use the instructions to build a formula one race car, a propeller plane, a tow truck, or a rolling robot that moves its head! You can even invent your very own moving creations using special elements such as gears, beams, axles, and tires!

Electric  
 SYSTEM  
**9V**

**8720** From 7-14 years

**9 V Power Pack.** Motorize your LEGO TECHNIC sets with the LEGO TECHNIC Power Pack!!! Check packages for details.

# LEGO Technic

New LEGO® TECHNIC Builders from 7-14 years

**8820** From 8-14 years

**Mountain Rambler.** Build a coil spring suspension and a steering column into this rugged four-wheeler! Includes instructions to build a dune buggy model!

**NEW!**

**8826** From 7-14 years

**ATX Sport Cycle.** Build your own all-terrain quad cycle or a dune buggy using the special LEGO TECHNIC pieces and functions in this set! This model's twisting chassis function will keep you off-roading all day!

**NEW!**

**8828** From 8-14 years

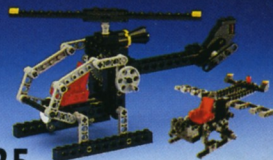

**Front End Loader.** Build the crane to raise the shovel on your LEGO TECHNIC creation! When you're ready for more, try building this alternate model - both models look and work like the real thing!

**8034** From 8-14 years

**Universal Building Set.** This set includes instructions to build a steering column and winch into a six-wheeled wrecker, a spinning rotor into a helicopter, or a rugged four-wheeler!

From 8-14 years

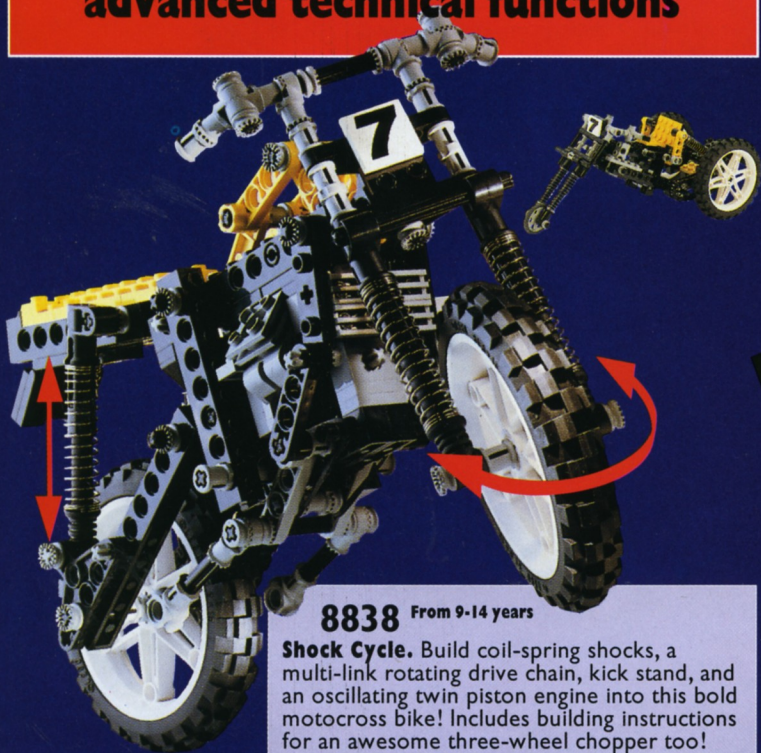

**8825**

**Night Chopper.** Turn the crank that you connect to the gear system to whirl the main and rear rotors! Instructions for a solo airplane are also included!

Advanced LEGO® TECHNIC Builders from 9-14 years

**Construct and control  
advanced technical functions**

**8838** From 9-14 years

**Shock Cycle.** Build coil-spring shocks, a multi-link rotating drive chain, kick stand, and an oscillating twin piston engine into this bold motocross bike! Includes building instructions for an awesome three-wheel chopper too!

**NEW!**

**8042** From 9-14 years

**Universal Pneumatic Set.** Build the power of air into any one of these models with the pneumatic system! With the flick of a switch and the push of a pump, your creations come to life! Imagine the fun you can have inventing your very own moving creations too!
