# Be a Knight in

Protect your castle with a glow-in-the-dark ghost, secret skeleton and 8 Royal Knights!

## Imagination is

a miraculous thing. It takes away the words "can't" and "shouldn't" and "impossible." And replaces them with words like "I am" and "I can" and "I will!"

Imagination lets your child battle a dragon. Or hoist a sail. Or explore the galaxy. Or be a mommy. And it's in tribute to your child's imagination that we proudly present our latest LEGO collection.

On these pages you'll find over 200 sets, including 40 exclusive or hard-to-find items -- toys that give your child unlimited possibilities for play and discovery.

We hope you enjoy looking through this catalog as much as we've enjoyed putting it together for you. And we hope our collection finds a place in the wonderful world of your child's imagination. But most of all, we hope our toys help your child discover the thrill of "I can!"

"This classy castle is a boo-tiful place to live!"

Trip the trap door and see who pops up!

Just like a real Tyrannosaurus from 65 million years ago...terrifying its prey with jaws that open and close...head and tail swing from side to side...and a body that lifts and lowers in its search for food. Three different motors, plus the flex cabling system give the T-Rex its amazing powers of movement. Now take the control panel in your own two hands and watch your creation roar to life!

Next, use the same pieces to build a helicopter. When you're ready for some action, hook it to the control center, with three motors to simulate the raging winds of a storm. Now take the controls and try to keep her steady! Also comes with detailed instructions for building a hovercraft! 1,063 pieces. Ages 11+.
